GUIDELINES FOR THE PAPER VERSION OF THE CAPI INTERVIEW

The face-to-face interviews used in the first wave of the Netherlands Kinship Panel Study were conducted with the aid of a computer. The so-called CAPI (Computer Assisted Personal Interview) questionnaire was programmed in Blaise. Using a CAPI questionnaire offers many advantages, but the drawback is that it is not easy to produce a paper version of the questionnaire that is easily accessible to users. Where possible, we have tried to solve this problem in this document. A number of layout guidelines have been applied to facilitate use of this paper version and to enhance legibility. A short description of these guidelines is given below.

In this paper version of the CAPI questionnaire, the questions the interviewer should read out and the available answer categories are given in normal font, e.g.:

B503  Was your father employed or was he self-employed?
   1     employed
   2     freelance / self-employed / own business
   3     family business
   4     don’t know

Information that is important to the interviewer is given in *italics*, immediately following the question, e.g.:

B206  How often have you seen your grandmother on your father’s side in the past twelve months?

   INT: Use Show card 1.
   1     never
   2     once
   3     a few times
   4     at least once a month
   5     at least once a week
   6     several times a week
   7     daily

Information for the reader about the routing of the questionnaire is given in *bold and italics*. This is done in two ways, either (a) before the question, e.g.:

L211  *This question is asked only if the respondent lives with at least one of his/her parents and does not have a partner living in the same household.*

   Within how many years do you think you’ll start living on your own?
   INT: If the respondent is not planning to live on his/her own, enter ‘99’.
   If the question does not apply, enter ‘88’.
   –     enter number of years

or (b) following one or more answer categories, e.g.:

G207  Do you make use of paid childcare?
   1     yes
   2     no → question G301

In some cases the formulation of the question varies, for example, because the name of a person who was referred to earlier in the interview needs to be inserted. This is indicated in *bold and italics* in squiggly brackets, e.g.:

C505B  Who has custody of *(name, description)*?
   1     you have custody, your ex-partner doesn’t
   2     your ex-partner has custody, you don’t
   3     both of you
   4     other
