Harmonized Histories Data - Canada

A new file has been added to the **Harmonized Histories** dataset:

- Country: Canada
- Year of data collection: 2006
- N=22,557 (12,540 women and 10,017 men)

The Harmonized Histories is an international comparative dataset which focuses on **fertility and partnership histories**, but also captures information on the socio-economic status, place of residence, the childhood family, and other relevant demographics. Are you interested in using these data for your research? Apply [here](#)!

Population Europe's Policy Brief - Securing High-quality Data on Populations

[This Brief](#) explains why the GGP and other European social research infrastructures are needed to provide high-quality data about families and the life course trajectories of individuals. Together, they improve the knowledge base for social science in Europe and other developed countries and ensure evidence-based social policies. The GGP also collaborates with EuroCohort and SHARE to offer comparable data which ensures efficiency and innovation in the data collection processes.

CoP meeting 2019, Paris

The 16th GGP Council of Partners meeting took place on the 23rd of October, at INED in Paris.

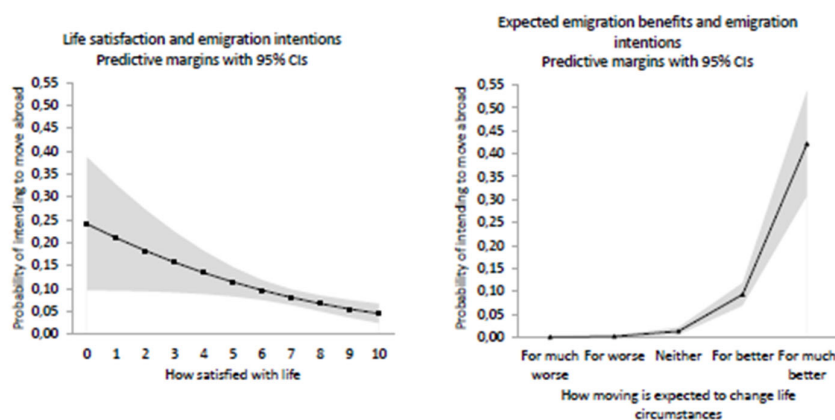

Representatives from **21 countries** shared information about the current situation and developments for the new round of data collection. The GGP Central Coordination Team also provided updates on the recent Pilot on modes of data collection, as well as the work conducted on the new questionnaire and preparations for the GGP ESFRI 2021 roadmap application.

GGP User Conference 2019 - Data Visualization Workshop

Ahead of the GGP User Conference, 15 international researchers attended the **GGP Data Visualization Workshop** with R held by [Ilya Kashnitsky](#). During this course, participants created enchanting visualizations on demographics using the most relevant data available, such as the GGP Contextual Database, GGS life sequence data, and geospatial using the Kazakhstan geo sampling.

GGP User Conference 2019 - Poster Contest

This year, for the first time, the GGP held a **Poster Contest** at the GGP User Conference. Among the twelve posters presented, "*To Leave or Not to Leave Croatia: The Correlates of Intentions to Move Abroad*" by Ivan Čipin, Petra Međimurec, and Mario Brnić, won the competition. It showed a significant association between life (dis)satisfaction and emigration intentions, and between expected emigration benefits and emigration intentions. Congratulations to our Croatian partners!

GGP User Conference 2019 - Master Thesis Award

Ester Fanelli is the winner of the **GGP Master Thesis Award 2019**, with her thesis titled: "*Second Half of the Gender Revolution: Equality at Home and Reversal in Fertility Decline*". Her excellent study shows that a more balanced division of labor within couples results in increased fertility rates by allowing women to more easily combine paid and unpaid work.
