intro (Intro)

General introduction text (to be adjusted, for now same as in W1): This survey is about family, work and everyday life. Your answers will help us understand the complexities of today's families and the reality of people at different stages of their life. Our aim is to better understand, for example, what influences people's decision to have children or how they share household chores in couples. The results will be used to advise policy-makers on how to improve issues such as work-life balance, social relationships between generations and gender equality. Your participation is voluntary. If you don't want to answer any of the questions as some of them deal with sensitive topics, you are free to skip these at any point by choosing the response option 'refuse'. We will remove all personal identifiers from the data and ensure that your answers are only accessed by authorized and verified researchers for scientific purposes.
